EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Syrowik on 8-15-2006.

In the claims

Claim 1, line 3, the recitation "couplable" should be changed to --capable of being coupled--.

Claim 2, line 3, the recitation "couplable" should be changed to --capable of being coupled--.

Claim 21, line 4, the recitation "couplable" should be changed to --capable of being coupled--.

Claim 21, line 15, the recitation "couplable" should be changed to --capable of being coupled--.

Claim 26, line 4, the recitation "couplable" should be changed to --capable of being coupled--.

Claims 31-37 have been cancelled.

Reasons for the above changes

The changes in claims 1, 2, 21 and 26 were made so that the claims are clear.

Claims 31-37 were cancelled because this application is in condition for allowance except for the presence of claims 31-37 directed to non-elected inventions without traverse. Accordingly, claims 31-37 have been cancelled.

Allowable Subject Matter

Claims 1-22, 24-30, 38 and 39 are allowed.

The following is an examiner's statement of reasons for allowance:

These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a square root circuit and a logarithmic generating circuit receiving the same input and having there outputs summed or superimposed, in combination with the rest of the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
